15 MAY 1978

MEMORANDUM FOR: Deputy Director for National Foreign Assessment  
FROM: Director of Central Intelligence  
SUBJECT: NSC on Defense Consolidated Guidance

At the NSC meeting on the Defense Consolidated Guidance, the President directed that a study be made of what help other nations could have given in the Ogaden situation. I believe what he was asking for was a theoretical capability study as opposed to a political intentions one. Just thought you'd like to know this was going on.
